PROFESSIONAL EXPERIENCE

OUTPLAY
Software Developer (Full Stack)

Mohali, Punjab
JAN 2025 - PRESENT

- Architected CRM integrations across 5 platforms (Salesforce, HubSpot, Crelate, Pipedrive, and Zapier), enabling seamless data synchronization that cut manual data entry by 60%.
- Launched WhatsApp Business API integration for automated messaging and notifications, processing 10,000+ outbound messages daily at 99.9% delivery reliability.
- Engineered dialer functionality across Twilio, Plivo, and FreJun with call management and logging, reducing average call setup time by 35%.
- Secured 8+ third-party integrations with OAuth 2.0 authentication and authorization flows.
- Leveraged Apache Kafka for event-driven asynchronous processing across 12+ microservices, handling 500K+ events per day.
- Designed customizable workflow automation modules that improved operational efficiency by 45% and supported 30+ enterprise clients.
- Led a team of 5 developers by assigning tasks, conducting 100+ code reviews, and providing technical guidance to ensure timely, high-quality delivery.
- Drove system architecture design for 6+ new features, including database schema design, service/code flow planning, and scalable backend architecture decisions.

SMART ENERGY WATER
Product Engineer (.NET)

Noida, Uttar Pradesh
JULY 2022 - DEC 2024

- Built a high-performing RESTful ASP.NET Web API with Entity Framework & LINQ, serving 1M+ daily requests with seamless data retrieval and modification.
 - Hardened application security with robust authentication and authorization mechanisms, protecting sensitive data for 200K+ users.
 - Optimized API performance by refining query processes and data retrieval methods, reducing average response time by 40% and increasing overall system efficiency by 25%.
 - Migrated 80+ SQL-based stored procedures to a LINQ-based API, delivering a 50% performance improvement and a significant boost in query efficiency.
- Delivered a ReactJS billing module supporting Card, Bank, PayPal, GPay, and ApplePay, now processing over 50,000 transactions daily.
 - Connected 4+ payment gateways (Chase, PayPal, SAP, and Kubra), ensuring seamless transaction processing and a superior user experience.
- Owned production support for Payments, AutoPay Scheduler, and IVRToPay, improving system availability to 99.8% while promptly resolving issues and shipping enhancements.
 - Streamlined the Auto Pay and Reconciliation Schedulers, reducing processing time by 40% and decreasing error rates by 30%.

SMART ENERGY WATER
Product Engineering Intern (.NET)

Noida, Uttar Pradesh
JAN 2022 - JUNE 2022

- Built 10+ customizable Smart Templates for work orders, inventory, and assets with drag-and-drop functionality, reducing template creation time by 30%.
- Implemented w2ui interactive grids and Highcharts visualizations, increasing user engagement with data insights by 40%.
 - Enabled multi-format export (PDF, Excel, HTML, CSV) across data grids, improving data accessibility by 25%.
- Developed an interactive LeafletJS map with marker clustering and lasso selection, boosting geographical data visualization efficiency by 50%.

EDUCATION

THAPAR INSTITUTE OF ENGINEERING AND TECHNOLOGY
Bachelor of Engineering, Computer Engineering [7.5 / 10]

Patiala, Punjab
2018-2022

TECHNICAL SKILLS

- Languages: C#, JavaScript, C/C++, SQL
- Backend & APIs: ASP.NET Core, .NET, Entity Framework, LINQ, Node.js, Express.js, RESTful APIs, OAuth 2.0, Microservices, Apache Kafka, Redis
- Frontend: Angular, ReactJS, jQuery, Bootstrap, HTML, CSS, JavaScript
- Database Management: MS SQL Server, MongoDB, PostgreSQL
- Tools & Technologies: Git, Azure, Jenkins (CI/CD), Jira, Postman, Visual Studio, VS Code
- AI Tools: GitHub Copilot, Cursor, Claude Code, ChatGPT, Codex

ADDITIONAL INFORMATION

- Awards: Received the "Award of Excellence" semi-annually for 4 consecutive periods at SEW.
